OBJECTIVE

Motivated undergraduate pursuing a Bachelor of Information and Communication Technology (BICT) at the University of Colombo with a strong interest in Machine Learning, and software development. Seeking a 6 month internship to apply and expand my skills in related fields of machine learning, web development, software development, quality assurance, backend development, and collaborative software projects.

EDUCATION

university of colombo

jun.2022 – present

Bachelor of Engineering Technology Honors in Information and Communication Technology

PROJECTS

Music Streaming Application

feb.2024

- Developed a personalized music streaming platform using Django, React and machine learning
- improved recommendation accuracy by 20%.

Book Recommendation system (ongoing)

Nov.2024

- Designed a system to recommend books using Django, React and Machine learning
- integrated cosine similarity machine learning model

Music Streaming Application

Sep.2024

- Created a CRM platform with Django and role-based access controls.
- Enhanced UI design with Tailwind CSS.

TECHNICAL SKILLS

- Programming Languages:** Python, C, JavaScript
- Machine Learning:** Fundamental of supervised and unsupervised learning
- Backend Development:** Django, REST APIs
- Frontend Development:** React, Tailwind CSS, HTML5
- Tools and Platforms:** Git, Linux, Visual Studio Code

SOFT SKILLS

- Effective Communication
- Critical Thinking
- Technical Documentation

ACHIEVEMENTS

- Completed advanced web development certifications on FreeCodeCamp.
- Successfully integrated machine learning algorithms into real-world applications, demonstrating problem-solving and coding expertise.

CERTIFICATIONS

Responsive Web Design by FreeCodeCamp

Focused on modern web development practices and frameworks.

JavaScript Algorithms and Data Structures by FreeCodeCamp

Strengthened problem-solving skills and algorithmic thinking.
